DETAILED ACTION

Rejections and/or objections necessitated by the amendments

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over the applicant's admitted prior art (AAPA) of this application in combination with Maex et al. (US publication 2002/015170) and Van Kestersen et al. (US patent 5,952,094).

With respect to claims 1-17, AAPA in combination with Maex et al. and Van Kestersen et al. teach the invention as claimed. **See the rejections of the office actions dated 08/22/05 and 01/03/06 and 06/01/06.**

Further with respect to claims 1 and 17 as presently amended, Maex et al. further teach the Co layer comprises at least 25 percent of Ni or up to 40 atomic percent of Ni. See claim 12 of Maex et al. Further, it is submitted that the presence of 25 percent of Ni or up to 40 atomic percent of Ni in the Co layer would inherently produce a reduction of up to 120 degrees C in the formation temperature of the disilicide as compared to a Co layer not containing Ni.

Response to Arguments

Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

In response to the applicant's arguments in the top paragraph on page 10 of the amendment dated 08/29/06, it is submitted the motivation for incorporate Ni to the Co layer is to accelerate the formation of disilicide phase.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
